Date:	27, May 2020, 10:00 AM (CST)
Location:	Virtual meeting via Zoom
Board Members	Jeanne Stuckey (UM) – Board Chair Ray Trievel (UM) Alfonso Mondragón (NU) Amy Rosenzweig (NU) Ladislau Kovari (Wayne State) Katrina Forest (UW) James Geiger (MSU) Martin Egli (Vanderbilt) Satish Nair (UIUC)
LS-CAT Staff (NU)	Keith Brister – Operations Manager Joseph Brunzelle Monica Green

Open Meeting (Jeanne Stuckey)

Jeanne Stuckey calls meeting to order at 10:00AM.

Calls to approve minutes from Dec. 2019 Board Meeting.
Motion: Satish Nair moves to approve minutes. Alfonso Mondragón seconds approval. Minutes approved by all Board Members.

Calls to approve current meeting agenda.
Motion: Satish Nair moves to approve agenda. James Geiger seconds approval. Agenda approved by all Board Members.

LS-CAT Management Board Meeting Agenda (Keith Brister)

LS-CAT Status Update

1. APS operating in minimum safe mode
2. Starting to allow non-COVID19 experiments with remote access only
3. One staff member allowed onsite, 2 allowed if repairs are being done
4. APS has changed the May and September down periods
5. May shutdown only lasts 10 days
6. September shutdown in mid-August/middle of the run

Monochromator Maintenance

1. Unable to do some planned mono work during May shutdown
2. Current issues with D mono, may need to restrict energy range
3. Work on the side bounce station needed before the down period
4. Will attempt both repairs during September shutdown
5. Will start the next run with "mail-in" service only while we get the beam back up

New LS-CAT Office Space

1. LS-CAT losing office space for construction of new Long Beamline
2. APS is creating space on the experimental floor for staff – "control rooms"
3. Electrical work underway for control rooms
4. Moving computers during shutdown
5. Plant to move 2 staff members in each control room/other staff to 435
6. More permanent office space for LS-CAT being constructed in corridor area along the Long Beamline Building (should take a year or 2)
7. All electrical, moving and construction costs covered by the APS-U

APS Upgrade Planning Update

1. Official shutdown still on track for June 2022
2. LS-CAT commitment to FY2022 budget is in May 2021
3. Possible delay of start date pushed to January 2023

4. COVID-19 may affect dates, will discuss more at next board meeting
5. LS-CAT Upgrade Planning (slide 7)
    - List of prioritized jobs for the upgrade
    - Some items have already been completed (moving beam masks downstream)
    - Servicing cryotigers next week
    - Planning to service D-Mono soon (just received quotes)
    - Need new diffractometer for D-Station (possibly covered by S10)

S10 Proposals Update (Alfonso Mondragón)

1. Two proposals submitted for MD3-UP Diffractometer and Eiger Detector
2. Received mild criticism that proposals were submitted "too early"
3. Funding decisions won't be made until Dec. 2020
4. Resubmitting proposals this Friday
5. Takes about 2 years for orders to arrive after being placed
6. Hoping for an approval as soon as possible, so the orders may be placed and arrive in time for the shutdown
7. Would like to submit more proposals for other stations if these are approved

New LS-CAT Agreement

1. Katrina Forest helped with modifications for the new LS-CAT Agreement
2. Link to modified agreement (slide 9)
3. Creating straw agreement for NU lawyers to solidify
4. Hope to start passing around to Institutions for signature by October
5. Would like to create a mechanism to keep from changing the agreement as the membership changes
6. Need liability language reviewed

Discussion: New agreement will not discuss membership dues or budget. Those items will be left to the management board to decide. Members can consult with the Institutions for guidance on what can or cannot be in the budget.

LS-CAT Budget for FY2021 (Keith Brister)

1. FY 2020 moving along as predicted
    - Salaries and spending are slightly down, capital spending is up
2. FY 2021 Budget breakdown (slide 12)
    - LS Staff not receiving raises next year, NU also cutting benefits
    - Keith is negotiating eliminating "Space Rental" costs with the APS
    - Capital equipment budget kept fairly the same
    - VanAndel dropping out by end of August (1/4 share loss)
    - Able to keep the share price the same due to APS Space Charge being removed/lowered
3. LS-CAT Budget for FY2021 (slide 13)
4. Vote 1: Approval of amounts shown

5. Vote 2: Allows the use of capital equipment funds for normal upkeep of the facility

Jeanne Stuckey calls for motion to approve first vote for FY21 Budget.
Motion: Jim Geiger motions to approve, Katrina Forest seconds motion.
All board members in favor.

Jeanne Stuckey calls for motion to approve second vote for FY21 Budget.
Motion: Katrina Forest motions to approve, Ray Trievel seconds motion.
All board members in favor.

New Business

1. Purdue said no to partnership with UM
2. Jeanne checked on several S10 proposals that were submitted and none of them were funded, will need to resubmit also

Discussion: Next step for LS-CAT Agreement is Keith sitting down with an NU lawyer, present modifications that were made and have the lawyers re-write the agreement. Keith will then circulate a copy to the members. The members will present the agreement to their administration and determine if there are any problems. We can discuss the problems (if any) and a final agreement can be made. We hope to have a final agreement sent to the members for signature, in October.

Jeanne Stuckey calls for motion to adjourn board meeting.
Motion: Katrina Forest motions, Martin Egli seconds motion.

Jeanne Stuckey adjourned meeting at 11:00am.

Minutes respectfully submitted by Monica Green on May 27th, 2020
