Re: One-year notice of termination for Collaborative Access Team Agreement

Dear Dr. Brister,

This letter provides one-year notification under Section 12.1 of the Collaborative Access Team Agreement (Effective Date March 1, 2002, as amended) that Van Andel Research Institute will terminate its participation in the CAT as of August 28, 2020.

As the Operations Manager for the Life Sciences Collaborative Access Team (LS-CAT), VARI requests that you provide this letter to the LS-CAT Management Board for its notification; copies of this letter will be mailed to each party at the notice addresses provided in the Agreement and its amendments.

Although VARI's participation in the LS-CAT program no longer fits into our organizational strategy, we anticipate many more years of fruitful collaboration with all of the Parties to the LS-CAT program, and look forward to providing any assistance requested of us to smoothly transition out of this program.

Please don't hesitate to contact me with any questions or concerns about this letter.

Best regards,

Jana Hall
Chief Operations Officer
